- Data Media... 120 minutes fire protection
- Paper records and documents... 120 minutes fire protection
- Cash... £2,500 insurance cover
- Valuables and Jewellery... £25,000 insurance cover

Specification Sheet

Phoenix Data Combi Range

The Phoenix 2500 Data Combi series are manufactured from the best quality EGI steel plate and, when combined with the latest fire resistant technology, a safe of massive strength, security and innovation is produced.

Great attention was given in the design of the safe to create not only resistance to attack by force or fire, but also to simplicity and ease of use.

The user friendly electronic digital lock allows the user to programme their own personal code from up to 14 easily remembered numbers, with a master code override if required.

Whenever an emergency arises, simply close the door and the PAL automatic locking facility takes over.

Sliding steel bolts, 30mm in diameter, will immediately engage into the door frame, locking the door shut and prevent access by force. In addition, a unique combination of door curvature seals will also present a virtually airtight defence against penetration by heat, gases and the chemicals ever present in a fire.

Product Code	Information
2501	Internal 510mm x 375mm x 330mm External 720mm x 500mm x 500mm Door Swing: 440mm/40mm Weight: 97Kg Capacity: 63 Litres Data Box Volume: 7 Litres
2502	Internal 670mm x 380mm x 330mm External 905mm x 520mm x 520mm Door Swing: 460mm/40mm Weight: 84Kg Capacity: 84 Litres Data Box Volume: 7 Litres
2503	Internal 880mm x 475mm x 350mm External 1145mm x 655mm x 560mm Door Swing: 570mm/40mm Weight: 222Kg Capacity: 145 Litres Data Box Volume: 13 Litres
